

L.O. To write a recount about our visit to Gibraltar Point 29.5.17

On Friday, the 24th of March we went to Gibraltar Point. We went there because we were learning about coasts.

We went on the coach at 9:30. I sat with my best friend Jasmine. I even got to sit next to the window! On the way we past lots of houses, trees and other buildings. I also played rock, paper, scissors and coconut coconut with Jasmine. The journey took about 20 minutes. We arrived at 10 o'clock.

When we arrived, we met our leader, Vicky. We went to the toilet and we began to work.

First we went to the river. Vicky told us if we were in the 1950s we will be standing on the beach. But now it changed into a river. Vicky also warned us not to fall in the rabbit holes. We got out of our bag some pictures of the past and now. We also saw the beach.

Next we made a saltmarsh in a black tray. First Vicky poured some water in the tray as the river. Next Vicky gave us some clay and we mixed it in the water. Then we used a ruler to make waves to see what left behinds.

Then it was lunchtime. My lunch was 2 ham sandwiches, some apples and tangerines and a bag of crisps. Miss Leatham kindly gave me a bar of chocolate.

In the afternoon we went down to the beach.

We stood on the saltmarsh and Vicky told us to get out a map. We've drawn labels to show where the place is. After that we went on the bridge. In the creek was Bob the mud alligator. We walked down the path and we found a sign. Vicky explained all about it. We walked further and found another sign. We walked a bit further towards the beach. I asked Vicky why weren't there any rocks and other coastline features. She said I need to go to Yorkshire. When we were at the beach we started to make sand dunes. Vicky made a line to show where we can't go through. We made a circle to make our sand dunes in it. First we went to find things on a sheet. Next we followed the instructions to make the sand dune. Finally we used the motor shells to make it like Hedgehogs. Then we went back. We past the sand dune, the signs, the saltmarsh, the creek, the bridge and back to the visitor centre. We went to the toilet, said good bye to Vicky and we went back to school. What a lovely day at Gibraltar Point!

to write a recount about our visit

On Friday we went to Gibraltar Point. We went on a coach. When we arrived we met Vicky, she was our leader. She told us where the toilets were and where to put our bags down. She told us to sit in a circle and we looked at a map and some photos.

Vicky took us to the river, it was called the River Steeping. It was very muddy because the tide was out. We had a photo from 50 years ago. We had a look to see what had changed.

We went back inside to make a salt marsh. We put some water in a black tray and we put a bit of clay in it. Then we made some waves with a ruler. Some bits of clay got left behind by the waves. We put a plastic plant in the tray and more mud got stuck!

Next we had lunch and I sat down next to Drew.

After dinner we were going to the beach and we had to fill in a map. Vicky told us about sand dunes. We had to hunt on the beach for hazel shells, stones

mussel shells and horn w/ack.
We made our own sand dunes
with them.

It was time to go back to school
so we went to get our bags. We
got on the bus and we waved
to Vicky. We went back to school
at the end of a lovely day.
